Memo No. P&C/ RC/PC-IV/25-26/129-151

Date: 07.05.2025

Sub: Formal order for transportation of materials/equipments by road under biennial rate contract from (1) Chord Road Central Stores and Zonal Stores at Chinsurah / Burdwan / Midnapore / Santipur/Malda and Siliguri to any other establishment of WBSEDCL and vice-versa. (2) From Steel stockyard of main producers and their re-rollers if any to different stores or sites of the WBSEDCL including loading, unloading, counting and stacking for a period of 2 (Two) years against

i) Ref. NIT No. P-51/2024-25/PC-IV/Transport, opened on 13.12.2024.

ii) Your Bid submitted against above NIT.

iii) Pre Bid Minutes and other correspondences made in this regards till date.

Dear Sirs,

With reference to above we are pleased to place this formal order with you to work as a transport contractor, as per rate contract to carry on road transportation work including loading, unloading, counting, weighing and proper stacking at respective end for various categories of materials and equipments as per following terms & conditions and as per attached annexure - A, A-I, A-II & A-III

1. TERMS AND CONDITIONS:

- (i) The work as specified in the enclosed annexure should be undertaken by you from time to time as per programme / delivery orders given by this office or by Chord Road Central Stores / Zonal Stores or as per written instructions of any offices of the WBSEDCL.
- (ii) Loading, unloading, counting and stacking etc. of materials at respective ends will have to be done by you without demanding any extra charge, except the allowable charges for loading, unloading, stacking as per this contract rates specified in annexure: A-I & A-II. You will have to supply labour, tools, tackles, lifting equipment required for loading, unloading, counting and stacking. For the calculation purpose, the Company has determined the break-up of loading, unloading, counting & stacking as 40% for loading, 40% for unloading and 20% for counting and stacking. The Company reserves the right to deduct the stated proportionate cost, in case of non-compliance of any of the work.

LA

SP

- (iii) You will be held responsible for any loss, theft, damages, deteriorations caused to the materials/equipments while in your custody, during transit, loading, unloading etc. and you will be liable to pay the amount of loss to be determined by joint inspection by the representative of the stores or technical personnel of the Company and your representative. In the event of your failure to turn up within 15 days from the date of receipt of our letter regarding shortage / damage etc., the Company will assess the extent of loss without further reference to you and the same will be binding upon you.

2. TRANSIT PERIOD:

Transportation of materials to the destination is to be completed within the transit period specified below:

- (i) For a distance of 100 Kms. or part thereof: 1 (One) day from the date of issue of materials / Equipment.
- (ii) For any distance between : 2 (Two) days –do–
101 Kms, to 200 Kms.
- (iii) For any distance between : 3 (Three) days – do–
201 Kms. to 300 Kms.
- (iv) For any distance between : 5 (Five) days –do–
301 kms. to 800 Kms.

3. STEEL TRANSPORTATION:

- (i) You shall take all possible steps to take delivery of steel materials from steel stockyards within the validity period of delivery orders. If the steel materials are not lifted within the validity period due to fault or negligence on your part and if in the meantime the price of steel increases, the price difference shall have to be borne by you.
- (ii) If the materials are not available in the stockyard you shall get it recorded on the Sale Order/ D.O. by the stockyard authority. The matter should also to be intimated to the Chief Engineer, P&C/Sr. Manager / Special Officer (Stores). You shall also submit a day to day report regarding the lifting of steel to the Addl. C.E. (PC-IV) / Special Officer (Store) P&CD.
- (iii) As we have no weighbridge in our Stores/sites [except in Chord Road Central Store, Siliguri Zonal Store & Chinsurah Zonal Stores] Steel materials prior to delivery at the destination are required to be weighted on a Govt. Approved weighbridge near the destination in presence of the representative of the Company. The Weighment charge is required to be paid by you and will be reimbursed by the Company against submission of the original receipt or 1st copy in case of Computer slip at the time-of payment of transport bills. You will get the transportation charge for three times the distance between the destination stores and the weighbridge, provided the

14/05/2025

SP

SP

weighbridge is situated at a place beyond the destination stores. If the weighbridges are situated enroute (i.e. before the destination) you will get transportation charge for the distance between the destination stores and the weighbridge for once only. In case of issuance of Steel sections and other materials, if Weighment is necessary in both the ends, then the transporters will get reimbursement of both the Weighment charges.

- (iv) No cutting of long length steel materials will be allowed except on specific permission of the consignee officer. If the long length steel materials are cut into two pieces you will get the transportation rate of steel materials up to 6-meter length plus cutting charges @ ₹ 2.30 (₹ Two point three zero) only (Per Sq. cm. of sectional area).
- (v) Incidental charges for lifting of materials from steel stockyard or any other place, if any, shall have to be borne by you and not by the Company. If a vehicle is returned empty for want of materials the Company will not be responsible for detention charge.
- (vi) The issuing stores shall indicate the length and number of pieces of Rails/ Joist/WPB, in the STN besides the tonnage indicated therein. If the steel materials are received at destination stores on sectional measurement basis, tolerance limit will be according to IS specification. The Company will allow 0.4% tolerance limit for difference of weight taken on two weigh bridges (scale weight only). For passing of transport bills, particularly in steel, Rails, Joists and WPB consignments if comes within tolerance limit, the SRV. /STN quantity will be taken into consideration.
- (vii) For delivery of Steel materials on sectional measurement you should count the number of pieces in presence of stores personnel and that should be recorded on delivery challan with signature of the stores personnel and your representatives. The sectional measurement must be made within a period of 7 days after unloading of the materials at the receiving stores. If you fail to send your representative on the specified date for sectional measurement, the decision of the Company regarding the weight will be binding on you.
- (viii) No loading charges will be allowed, when the steel sections/Rails/Joists/WPB will be taking delivery from steel stack-yards of main producers / Suppliers.

4. DETENTION CHARGES:

The Company will not pay any detention charge of vehicle unless the detention is certified by any officer not below the rank of Class – II officer of the respective unit. If a loaded trailer/truck is placed in a store before 1 p.m. on a full working day and the same is not released on the same day for no fault of the transporter, he will get 1 day's detention charges. If the vehicle is placed after 1 p.m., detention charge of 1 (One) day will be payable if the same is not released on the next day. Detention charges will be payable at the rates allowed by DVC / CESC / other Govt. Depts. Every attempt should be made to inform, at least over phone, to the receiving stores towards the arrival of any consignment well in advance to witness over the Weighment and to chalk-out programming towards receipt of materials/equipment.

5. PENALTY:

- (A) If you fail to undertake the work on the programmed date or fails to complete the work within the stipulated period, the Company reserves the right to get the work done by some other contractor and the extra expenditure thus incurred shall be recovered from your Bill / Security Deposit. The Company also reserves the right to cancel the order for delay in execution of work. The materials have to be delivered within: - (i) one day for a distance of 100 Kms or part thereof, (ii) two days for any distance between 101 Kms to 200 Kms, (iii) three days for any distance from 201 Kms to 300 Kms and (iv) five days for any distance between 301 Kms to 800 Kms. as per schedule date of the programme given to you. Penalty @ ½ % value of the transportation work per week or part thereof shall be recovered from the outstanding bills / Bank Guarantee subject to a maximum of 5% value of the work. For the purpose of penalty, value of transportation means the charge for transportation but does not include the Re- Weighment charges. If a transporter fails to count and stack the materials after unloading, 20% of the loading, unloading and staking, shall be deducted from his bills. If such failures recur more than three times a year, the Company may debar contractor from the rate contract work. In the event a loaded trailer cannot enter the Stores premises due to narrow passage, or due to non-availability of sufficient space in the Stores premises for movement of the trailer, the Rails/Joists/WPB unloaded adjacent to the Store premises will not attract the penalty for failure of stacking.
- (B) You shall have to carry/materials/equipment both for long and short distance and you should attend the programme meeting held at Central Stores & Zonal Stores, WBSEDCL in each week, to receive the programme from the Concerned officer (s), Failure or refusal to attend the programme meeting at Stores on three consecutive programmed date without reasonable excuse, will tantamount to breach of contract and the Company will have the right to cancel the order placed with you or to impose penalty in following manner.
- i) 50% of the total transportation charges, excluding the charges of loading, unloading, counting and stacking charges, will be deducted from the last transportation bills of individual consignment received by the office, executed on the penultimate month of refusal to attend the programming meeting of the respective store.
 - ii) In addition to the above, the Company will have the option to withhold the payment of the defaulting contractors for a period of three or six months, as the case may be, considering the performance of the contractor in the Company.

6. VALIDITY:

This order will remain valid for a period of 2 (two) years with effect from 01.05.2025 to 30.04.2027, subject to further extension.

07/05/2025

SR

2/5

7. EARNEST MONEY & SECURITY DEPOSIT:

- a) Earnest money cum enlistment money amounting ₹ 2,50,000/- (₹Two Lakh Fifty Thousand only) should be treated as security deposit for successful transporter. Earnest money will be released only after expiry of successful Rate Contract Period. No interest shall be claimed against the company in respect of above deposit. The deposit is liable to be forfeited in case of non-compliance of the terms of rate contract orders within the rate contract period.

8. MODE OF PAYMENT:

- (A) On completion of transportation of steel materials directly from the supplier's end against each D.O., you should submit bills in triplicate made out in favor of the "Addl. General Manager (F&A), (P&CD), WBSEDCL, Bidyut Bhawan (4th floor), Kolkata: 700091, to the receiving stores concerned along with receipted challans. The concerned stores will forward the said to the Addl. General Manager(F&A), P&CD, after furnishing necessary certificate by an Officer not below the rank of Class II Officers with mentioning service acceptance/entry sheet number through ERP System for passing of bills.
- (B) In other cases, when the materials are transported from Central Store situated at Chord Road, Syamnagar, 24- Parganas (N) to any Units of the WBSEDCL through S.T.N. to any other Divisional/Sub-Divisional Stores / Project, you should submit bills in triplicate to the consignor/Issuing Stores along with the original signed challan for certification with service acceptance number through ERP System and onward transmission to the Addl. General. Manager (F&A), P&CD for payment.
- (C) In other cases, when the materials are transported from Zonal Stores Units of the WBSEDCL through S.T.N. to any other Divisional/Sub-Divisional Stores/Unit, you should submit the bills in triplicate to the consignor/Issuing Stores along with the original signed challan for certification with service acceptance number through ERP System and onward transmission to the Paying Authority [D.G.M. (F&A)/Sr. Manager (F&A)/Manager (F&A)] of the respective zone of the Zonal Manager Office for payment.
- (D) For other orders, Paying Officer will be as incorporated in the respective order. Payment inclusive of Price Variation Bill (as mentioned in Clause 13) will be made along with 100%GST (at applicable rate) and TDS under GST will be applicable, within 45 working days in all the above cases, by the respective authority against the transport bills received by paying office and found to be in order in all respect.
- (E) **Theft During Transit:** In case of theft of materials while in your custody, the Company shall have the right to deduct the cost of materials including the 15% (prevailing) Store handling charges and or to debar from the contract in case of or repetitions of such activities, after giving due warning.

9. JURISDICTION OF WORK:

You shall have to work in a specified Zone as stated in the enclosed annexure 'A-III' and your movement will be restricted under the stated Zone (s) or place of work,

LA

subject to relaxation in case of Chord Road Central Stores, particularly on emergency situation.

10. WORKMEN'S COMPENSATION:

You shall be liable for and shall indemnify the employer against losses, expenses or claims arising in connection with the death of or injury to any labour employed by you or your sub-contractor in terms of Workmen's Compensation Act, 1923 and its rules made hereunder for the purpose of work. The Company shall neither be held responsible nor be liable to pay any compensation for any accident arising out of and in course of any labour of the contractor or any member of public while execution of work and / or executed portion of work till the completion of a specific job, entrusted by the Company. You shall have to specify through a separate communication regarding the no. of employees working under you, mentioning the name and designation along with their PF Nos., if any.

11. ADDITIONAL PAYMENT FOR TRAFFIC RESTRICTION:

The company shall pay an extra transportation charges @10 % (ten percent) only due to imposition of restriction towards movement of vehicle during specially day light hours. The amount shall be payable for:

- i) Vehicle plying through Bidhannagar/Kolkata Metropolitan city carrying material from Central/Zonal & other stores /Steel Stockyards to the destination point (mainly Bidhannagar-II/III, New Town, Bashirhat, Bongaon, Baduria, Garia, Sonarpur, Baruipur, Behala, Canning, Purba Durgapur, Uttarbhag, Diamond Harbour, Kakdwip, Bhangar-Minakhan, Joynagar) located in the District of 24 Parganas (N)/ 24 Parganas (S).
- ii) The above additional amount shall also be applicable for transportation of materials to/from located within/vehicles plying through the Siliguri Metropolitan/Police Commissionerate area/ Burdwan Municipal area/Midnapore Town area (Tamluk & Contai), irrespective of destination.
- iii) The extra charges for other municipal area shall be extended after due verification of traffic restriction from the appropriate authority.

12. TOLL TAX:

The Company will also reimburse the Toll Tax charges against the production of original receipt/ fast tag document, issued by the Toll tax plaza authority. The reimbursement will be made through transport bill.

Ch
07/05/2025

SP
2/6/25

2/6/25

13. VARIATION OF TRANSPORT RATES DUE TO INCREASE OR DECREASE OF DIESEL PRICE:

The Company will take care of transport rate only, other than loading unloading and stacking charges, through the prescribed formula, stated here-under: –

FORMULA: - $R1 = RO (0.73 + 0.27 \times D1 / DO)$

Where R1 = Revised transportation rates.

RO = Transportation rate as per order.

D1 = Rate of diesel (after increase / decrease in diesel price).

DO = Base rate of diesel as on 13.12.2024.

No increase / decrease will be considered, if the effect of such change of diesel price resulted (+ / –) 3% below the level of transportation charge and no effect will be considered on loading, unloading and stacking charges.

Please acknowledge receipt of this order and communicate your acceptance within 10 (ten) days from the date of issuance of this order for your reference and record.

Yours faithfully,

(S G Datta)
Chief Engineer (P&C)
WBSEDCL

7/5/25

BASIS OF CALCULATIONS

The rates, for road transportation only, as specified in the next foregoing pages (i.e. Annexure A/II) shall be automatically come down as follows, in line with the "Telescopic rate theory".

- (i) The basic rate for the distance 0-30 KMS will remain same as stipulated in the rate column of the foregoing pages.
- (ii) If the distance exceeds 30 km, but remains within 50 kms, the rate stipulated for 0-30 kms. will be reduced by 20% and the transportation charges will be calculated by the reduced rate for the entire distance up to 50 km.
- (iii) If the distance exceeds 50 km. but remains within 100 km. the rate stipulated for 0-30 kms. will be reduced by 40% and transportation charge will be calculated by the reduced rate for the entire distance up to 100 km.
- (iv) If the distance exceeds 100 km. but remain within 200 kms. the rate stipulated for 0 to 30 km will be reduced by 55% and transportation charge will be calculated by the reduced rate for the entire distance up to 200 kms.
- (v) If the distance exceeds 200 km. but remains within 300 kms. the rate stipulated for 0 to 30 km. will be reduced by 62.5% and the transportation charge will be calculated by the reduced rate for the entire distance up to 300 kms.
- (vi) If the distance exceeds, 300 km. but remains within 400 kms. the rate stipulated for 0 to 30 km. will be reduced by 65% and the transportation charge will be calculated by the reduced rate for the entire distance up to 400 kms.
- (vii) If the distance exceeds 400 km. the rate stipulated for 0 to 30 kms. will be reduced by 72.5% and the transportation charges will be calculated by the reduced rate for the entire distance.

The above deduction has been shown in the next page through a BAR CHART as ANNEXURE A-I

N.B.

1. The Company will give protection of the Charge of the previous distance slab if the transportation charge for any distance in the next slab is less than the previous distance slab.

07/05/2025

Handwritten signature

2. The above basis of calculation is applicable to all the categories in this Annexure- 'A- II'.
3. The loading unloading, counting and stacking charge and the minimum charge per trip will remain same for all the distance slab.
4. The Company will consider the minimum chargeable distance as 20 kms.

'A' Tonne-KM rate means the rate for transporting 1 M/T of material for a distance of 0-1 K. M.

'B' Unit - KM rate means the rate for transporting 1 unit of Equipment for a distance of 0-1 K. M.

'C' Truck - Minimum size must be - 18' x 7' only.

'D' Trailer - Articulated / Hintch / Low bed.

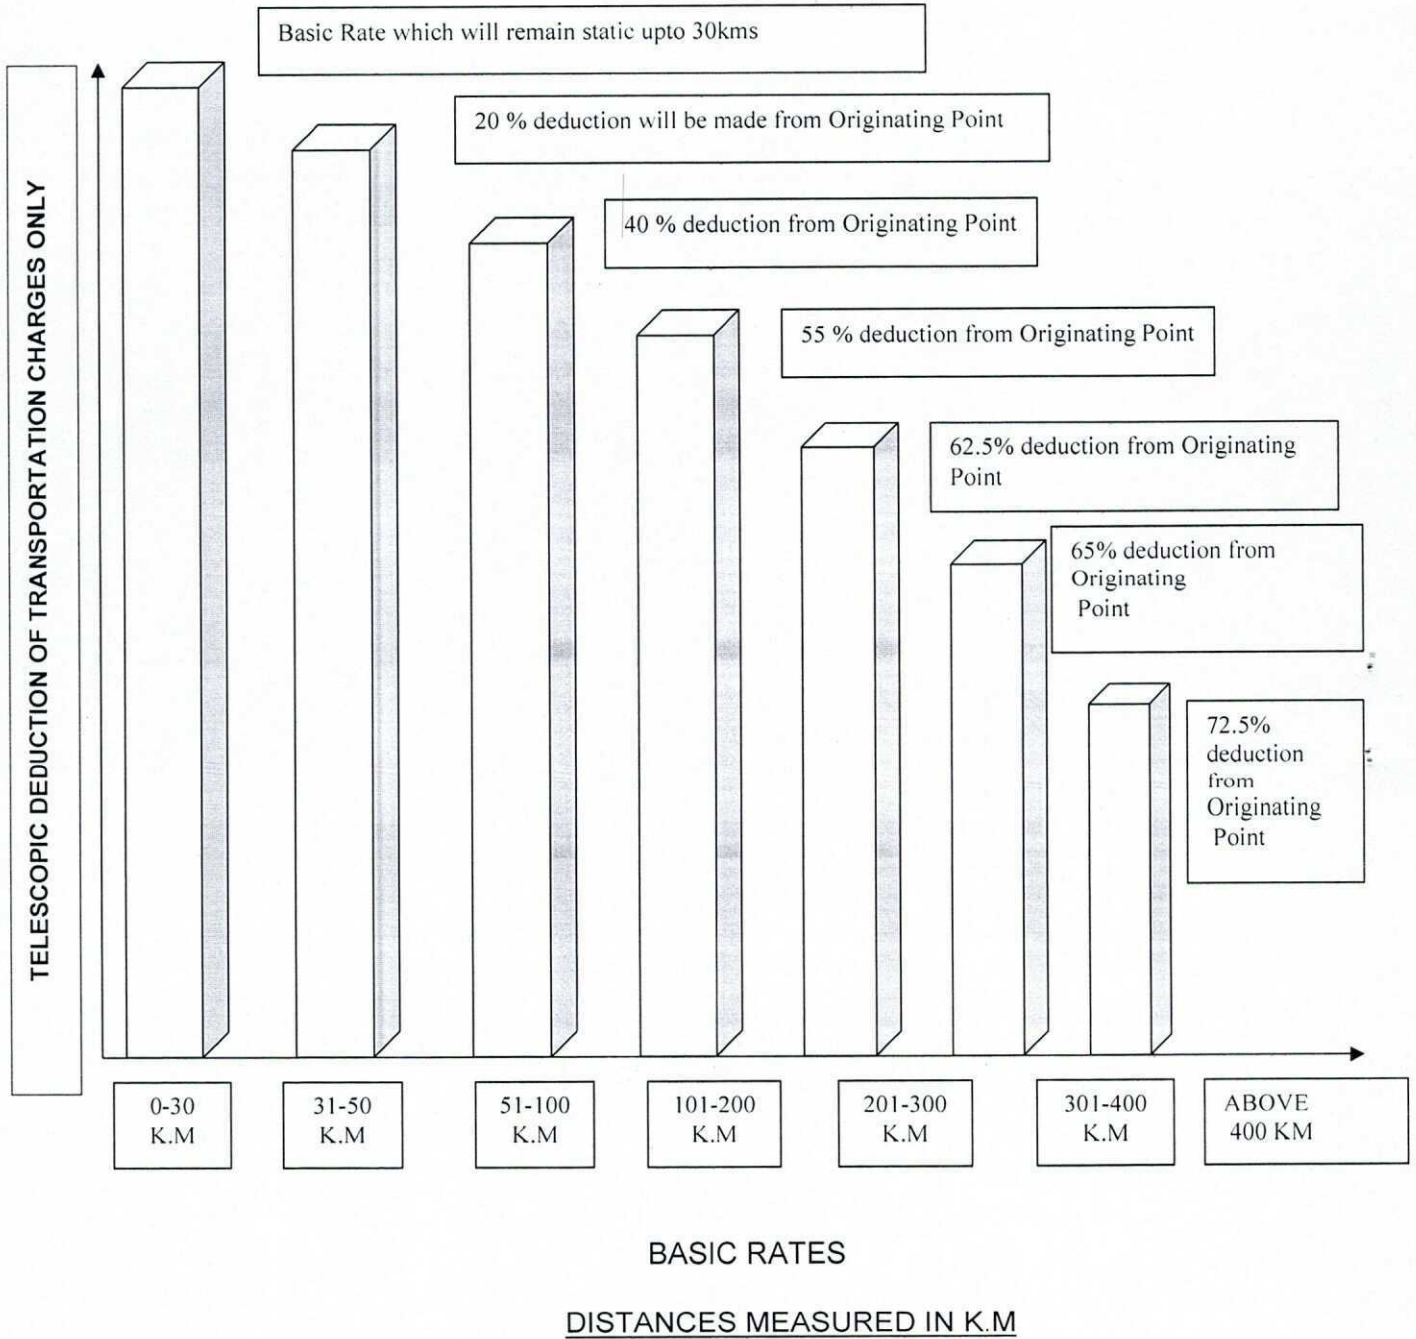

'E' Mini Truck - Below the above size of truck will be considered as mini truck/light goods vehicle. In case of mini truck/light goods vehicle consignment, the Company will not give any protection, towards the minimum chargeable tonne / Unit and the transporter will get the actual charges of loading, unloading & transportation.

INSTRUCTIONS FOR THE EXECUTORS

Shall be binding as conditions of the contract

- 1. Programming:** - The Central & all zonal stores should maintain a programme register and in each and every week, necessary programming on a particular weekday, shall have to be made, under the joint signatures of Officers in Charges of Store and the authorized representative of the transporters.
- 2. (a) Certification of Transport Bills:**

When materials & equipments are sent from one store to another stores through STN, the transporters are required to submit their bills in triplicate supported by receipted challan to the issuing stores for certification. The issuing stores should certify the bills in line with the Transport Order & the Service Acceptance No. Necessary certificate may be issued as per the model furnished below :-

“Certified that the transport work including, unloading and stacking of material has been done in accordance with Order No. **P-51/2024-25/PC-IV/Transport**Date. as per STN No. furnished by the.....”

(b) On receipt of the materials from suppliers, the transporters will submit bills to the receiving stores supported by receipted challans. The bills are to be certified as under: -

Certified that the transport work including loading, unloading and stacking has been done in accordance with transport Order No. **P-51/2024-25/PC-IV/Transport** date.... and materials/equipment have been taken into account as per SRV No. date. The weight length and quantity of materials are as per invoice and have been transported by truck/trailor No. stacking has been / has not been properly made.
- 3. Capacity utilization:** In case of under loading, a certificate showing the reasons for such under loading should be furnished by Officer in Charge of Stores and in case lifting of steel sections from stock yards or re-rollers, Manager (Store) P&CD will certify the same with proper reasoning.
- 4. Clubbing of trips for different destination stores:** The issuing stores should write the following words on the body of STN to let receiving stores know that the consignment also carries materials for other destination.

“Clubbing trips with multiple destination consolidated with STN Nos.”

At the same time, the receiving stores should certify the bills and challans with the following remarks: “Consignment also contains materials for other destination/Stores.”
- 5. Acceptance of Rails:** Rails shall be accepted by scale weight from weighbridge and where there is no weighbridge or the weight difference is very negligible and beyond the tolerance limit but within 2% only, the stores may accept the Rails by counting the pieces and measuring the length of the rails, provided the Rails do not have any fresh cut mark.

hm
07/05/2025

26/05

After measuring each piece, average weight per meter may be arrived at by dividing the invoice weight by the total length and the materials may be accepted for and issued as per average weight thus arrived at. If there is wide difference between the weight as per sectional measurement and the invoiced weight. Officer in Charges of stores may resort to weighment in weighbridge if available nearby, if not; the matter may be referred to A.C.E. (PC-IV) P&CD for further action.

6. Diversion : It has been decided in some unavoidable circumstances to save the loading, unloading counting & stacking Cost, that the Rails/Joist/WPB and other steel materials from the main producers stack yard should reach the central / zonal stores first then the same may be diverted to the respective stores/sites, without effecting the unloading operation and after issuing the SRV and STN. and in that case only the No. of pieces may be taken into A/C, provided there is no scope of weighment and no fresh cut mark is visible and zone restriction will also not applicable here. At the time of bill certification, the distance from stores to diverted destination may be mentioned. The same analogy will also be followed in case of other materials.

7. Billing in case of diversion of Rails:

In case of diversion, transporters are at liberty to raise their transport bill from the loading point to consignee stores, without calming any loading, unloading, counting & stacking charges of diverted quantities only. Transporter will raise separate bill for diverted quantities from issuing stores to destination stores/sites, calming unloading & stacking charges only. Two bills should be treated separately. No zone restriction will be applicable.

8. Zone Restriction may be ignored:

In case of Exigency and or emergency situation the Central stores, situated at chord road, Shyamnagar 24 pgs (N) is at liberty to requisition the services of any rate contract approved transporters, as per this rate contract rates. The Officers in Charge of Chord Road Central Stores will certify the engagement of transporters on the reverse of the transporters bills, with the proper reasons/ justifications. No restriction will be applicable and the bills will be passed accordingly.

9. If the movement of materials is confined within the same town, the Company will certainly not pay the distance travelled towards weighbridge twice (i.e. at Consignor's end and Consignee's end).

All possible efforts should be made to get the work done through the rate contract approved transporters whose names are available in this book. Under no circumstances the unauthorized and unknown transporters should be allowed to carry materials/equipment, as per this rate contract, since this office is not favoured with security deposit. As such the Company will not be able to realize the cost of materials, in case of any loss or damages, breakages and or deterioration. Failure of the transporters may be reported to this office for application of penal measures. All the Executing Officers are requested to go through the attached sheet marked as "Instructions for the Executors" and act accordingly. This has got the approval of STC, vide it's meeting No. 313.04 held on 06.03.2025 and subsequent approval of the CMD WBSEDCL on 09.04.2025.

(R. Sinha)
Manager (Stores)
P&C, WBSEDCL.
